

Kindle Cover Review Guide
Kindle 4th Generation

kincover.com

Thank you for reading this Kindle cover review guide for the 4th Generation Kindle. While blog reviews and product descriptions are great, I wanted to put together a streamlined resource that is scan-able yet jam packed with information. If you have read any of my reviews on kincover.com, you'll notice the reviews include a variety of resources to truly compile a well rounded review. While I have maintained this focus in the guide, each review has been compressed to the most important details and links to outside resources.

I've put countless hours into researching and reviewing cases and covers for the Kindle, but I'm not perfect. Your input and review suggestions are what differentiates kincover.com from other Kindle accessory review blogs. Even if none of the covered included match exactly what you are looking for in a case, at the very least this guide will give you a better understanding of what's available.

I will be updating this on an ongoing basis and already have the next update in the works. If you find this guide helpful please pass it on and I thank you in advance!

Classic Leather Kindle 4 Cover

Made by Acase

This is by far one of the best Kindle cover deals I can find. The Acase cover is a standard folio cover, but the price is much less than the majority of folio/flip open covers available.

- Colors: Black, Blue & Red
- 4 corner harness
- Suede interior lining
- Small inside pocket
- Magnetic strap enclosure
